About:

I am an enthusiastic location sound recordist working extensively in London and the North West of England, with a full degree in **Music Technology BSc(Hons)**. I've been working with clients to provide the **highest quality** sound for professional use, using the best equipment available. to get the best audio for their projects. Anything from **Live Sports**, EPK on AAA films to corporate shoots. Giving me the skills to be **professional** and stay calm under pressure. Having excellent knowledge of the industry I always have a positive attitude with an on **site etiquette** that allows me to work well in a crew environment.

I'm available to work internationally and worldwide, with a clean driving licence, UK and Irish passport.

Covid-19:

I understand that Covid-19 is a great risk to myself and people around me. That's why I take great care ensuring my equipment is clean and talent and crew feel safe around me with social distancing.
