Diary: Suz Cruz North 0161 635 0075

I am a lighting cameraman/DP with wide range of experience on all types of productions from corporate and TV docs through to features and commercials, as well as single and multi camera work.

Working throughout the UK and overseas, I have travelled extensively and have considerable experience and expertise dealing with the complexities of working in unusual and challenging environments, be that the Arctic Circle, the Empty Quarter in the UAE or just a typical English summer!

Over my career I have shot on every format from Super8 to 4K and have experience on every camera platform currently in use.
